You may recognize him from his **AT&T commercials**, or as the narrator from the movie **Anchorman**, but Bill Kurtis is coming to campus to talk about beef! This actor, journalist, and producer is also founder of **Tallgrass Beef Company**. Join us as Bill discusses why grass fed beef is better for you, the animals, and the environment.

Tallgrass fed beef burgers will be served in both dining halls this day and samples will be available at the event.
